Typical Properties	
Appearance:	Clear liquid
Smell:	Odourless. Safe.

MPI Approvals

C44:	Zoono Z-71, 2015-09-04, Zoono Limited.
C101-02:	Clear Protect 30, 2015-09-08, Clear Facilities Limited.

Features Benefits

Cellarguard plus keeps killing 99.99% of germs for up to 30 days. CellarGuard forms a long-lasting antimicrobial coating that bonds to surfaces and protects against a variety of pathogens including H1N1 virus, Norovirus, E coli, MRSA and Salmonella, as well as mould, fungi and algae. CellarGuard is water based, alcohol free, non-toxic, food safe, non-leaching and environmentally friendly.

Use Directions

Step 1:	Thoroughly clean the surface to be protected. For mould protection, use CellarGuard MouldClean.
Step 2:	Spray or mist onto surfaces. Leave to dry for 10 – 30 min.
Step 3:	Wash surfaces if required.

Quality Certifications

CellarGuard conforms to EU Standards EN 13697; EN 14348; EN13623; EN 14476; EN13727; BSI PAS:2424; BSI PAS:2430 amongst many more antimicrobial efficacy tests.

Packing
5L, 1,000L

Handling precautions

For external use only. If swallowed, call a doctor. May cause mild skin or eye irritation. If skin irritation occurs get medical advice. If product gets in the eyes, rinse thoroughly with water for several minutes. Remove contact lenses if used. If eye irritation persists, seek medical advice.
